

# HEARTSAVER<sup>®</sup> PEDIATRIC FIRST AID

*Offering the most comprehensive and flexible training solution for childcare professionals*

Specifically designed to meet regulatory requirements for child care workers throughout the U.S., the American Heart Association's new Heartsaver Pediatric First Aid Course offers the ideal pediatric first aid training solution for the child care industry and others requiring a credential in pediatric first aid. The Heartsaver Pediatric First Aid Course contains information on how to manage illness and injuries in a child in the first few minutes until professional help arrives.

With the addition of this new course, the American Heart Association provides a one-stop shop for childcare providers training needs in CPR, AED use and pediatric first aid.

## Who should take the course?

For those involved in child care who have a duty to respond to a first aid emergency because of job responsibilities or regulatory requirements, such as child care workers, teachers, foster care workers, camp counselors, youth organizations, coaches for children's sports organizations, and others.

## Course Features:

1. Course content based on regulatory requirements for child care workers in all 50 states
2. Includes the most current resuscitation and first aid science from the 2005 American Heart Association Guidelines for CPR and Emergency Cardiovascular Care
3. Incorporates new educational methods to improve student learning and retention, like the AHA research-proven Practice-While-Watching (PWW) method of instruction for CPR
4. Course includes Optional Pediatric First Aid topics, specifically to meet the needs of regulatory agencies in some states
5. Student CD-ROM includes several additional pediatric first aid topics, so that facilities can tailor the course to fit their specific needs
6. Other state-specific information that instructors may need to include in their course can be found at the AHA Instructor Network at [ahainstructornetwork.org](http://ahainstructornetwork.org)

## Core Course Content Includes:

- Pediatric First Aid
  - First Aid Basics
  - Medical Emergencies
  - Injury Emergencies
  - Environmental Emergencies
- Asthma Care Training for Childcare Providers

## Optional Modules:

- Pediatric First Aid Optional Topics (Eye Injuries; Fever; Snake, Spider, Scorpion, Tick, and Marine Animal Bites and Stings; Suspected Abuse)
- CPR and AED
